Executive Summary

This report describes the methodology and procedures used to conduct a job analysis and develop the exam specifications for the National Pilates Certification Program (NPCP) Pilates Mat Certified (NPCP-PMC) certification examination.

The three major activities that comprise the job analysis process described in this report are as follows:

- 1. **Job Analysis Committee Meeting** A gathering of subject matter experts (SMEs) to discuss and develop a description of the scope of practice
- 2. **Job Analysis Survey** A large-scale survey of practitioners not involved with the SME panel to validate the task and knowledge statements developed by the committee
- 3. **Development of Examination Specifications** The development of an Examination Content Outline by the committee based on the results of the survey

Several practitioners were assembled by NPCP to serve as subject matter experts (SMEs). The individuals selected represent a wide variety of work-related characteristics such as years of experience, work setting, geographic location, and areas of specialty. This helps in developing a scope of practice that is reflective of the roles and responsibilities of the job role and is relatively free from bias. By analyzing the experiences and expertise of current practitioners, the results from the job analysis become the basis of a validated assessment that reflects the competencies required for competent job performance.

The job analysis process utilized in this study yields exam specifications that accurately reflect the scope of practice, allowing for the development of fair, accurate, and realistic assessments of candidates' readiness for certification. The resultant Examination Content Outline (Appendix E) indicates a 75-item examination with content distribution requirements at the competency area (content domain) level as well as topic (content subdomain) level. The four competency areas are:

- 1. Client Assessment
- 2. Repertoire Knowledge and Program Design
- 3. Technical Expertise
- 4. Business Management and Professionalism

Introduction

This report describes the methodology and procedures used to conduct a job analysis and develop the exam specifications for the NPCP Pilates Mat Certified certification examination.

The job analysis was conducted in accordance with principles and practices outlined in the *Standards for Educational and Psychological Testing*¹, which describe principles and guidelines for all aspects of test development, including content validation.

A job analysis (sometimes referred to as a practice analysis, job task analysis, role delineation study, work analysis, or competency profiling) is a scientific inquiry conducted to identify the tasks and work activities conducted, the context in which those tasks and activities are carried out, and the competencies (knowledge areas, skills, and abilities) required to perform a job role successfully². Different methods can be used which may differ in the levels of specificity in analyzing and describing different work elements, with the choice of method largely dependent on the intended purpose and use of the results. The methodology of the current analysis was tailored to the creation of exam specifications for test development.

When completed, the job analysis process utilized in this study yields exam specifications that accurately reflect the scope of practice, allowing for the development of fair, accurate, and realistic assessments of candidates' readiness for certification. The job analysis is typically performed every 5 to 7 years so that the content outline represents the current scope of practice. Because it serves as the primary basis for content validity evidence, as required by the aforementioned standards, the job analysis is a primary mechanism by which a certifying body or regulatory board can ensure the accuracy and defensibility of an exam. It serves as the foundation of the certification exam and is critical to the success of the entire exam development process. All necessary documentation verifying that the validation process has been implemented in accordance with professional standards is included in this report.

This report is divided into the major activities of the job analysis process, which are:

- 1. **Job Analysis Committee Meeting** A gathering of subject matter experts (SMEs) to discuss and develop a description of the scope of practice
- 2. **Job Analysis Survey** A large-scale survey to practitioners not involved with the SME panel to validate the task and knowledge statements developed by the committee
- 3. **Development of Examination Specifications** The development of an Examination Content Outline by the committee based on the results of the survey

Job Analysis Committee Meeting

NPCP selected 11 subject matter experts (SMEs) to represent a wide variety of work-related characteristics such as years of experience, work setting, geographic location, and areas of specialty to develop a scope of practice that is reflective of the roles and responsibilities of the job and is relatively free from bias. See Appendix A for a complete list of the SMEs and their qualifications.

Prior to the job analysis committee meeting, all SMEs submitted detailed information about the job role to provide background information, the history of the credential, and the anticipated future of the job role. This information was collected between June 24, 2022 and July 22, 2022.

PSI Services LLC (PSI) conducted a job analysis committee meeting on July 30, 2022 with SMEs to discuss the scope of practice and develop a list of tasks and knowledge areas that reflect the job role. PSI led the SMEs in refining task and knowledge statements and organizing them into a domain and subdomain structure. See Appendix B for the presentation used to orient the job analysis committee at the beginning of the meeting.

The job analysis committee reviewed the initial 36 tasks (see ratings below in Table 2) and then consolidated the tasks into 27 task statements, as follows:

Intake related tasks

- Observe and assess clients' abilities, needs, and physical conditions, and develop suitable Pilates Mat programs to match program with client's skill level
- 2 Appropriately solicit and gather information regarding client's health and exercise history including need for medical release that may impact practice

Program design related tasks

- Demonstrate working knowledge of the history and principles of Joseph Pilates and purpose of original Mat Pilates as articulated in Return to Life
- 4 Develop Pilates Mat programming to accommodate full range of client experience and abilities, and full range of session contexts (e.g., gyms, community centers, schools, etc.)
- Incorporate full range of exercises into Pilates Mat practice as appropriate for client/class
- Apply and understanding of relevant movement sciences (e.g., anatomy and biomechanics) to Mat Pilates teaching
- Design and implement safe, appropriate, and effective Pilates Mat programs, including monitoring and modifying client/class program goals using objective and subjective information (e.g., body position, range of motion, form, repetitions, etc.)
- 8 Safely incorporate Pilates Mat props (e.g., Resistance Band, Magic Circles/Pilates Ring, balls, hand weights, etc.)

Teaching related tasks

- 9 Create an inclusive, welcoming, and supportive class environment
- 10 Incorporate and instruct clients on Pilates specific breathing techniques
- Adapt Pilates Mat programs to accommodate changes in client's individual circumstances (e.g., changes in function, readiness to progress, etc.)
- 12 Effectively cue client-specific modifications in real time factoring in client ability, injury risk etc.

- 13 Effectively and appropriately use verbal and tactile correction techniques during class instruction
- 14 Use variable vocal dynamics (e.g., speed, tempo, volume etc.) while instructing to reflect and support the quality of each exercise
- 15 Develop effective in-class communication style that facilitates "flow"
- Maintain a class/session environment conducive to learning, including effective classroom positioning (e.g., mingle with students vs. leading from front)
- 17 Apply an understanding of relevant movement sciences (e.g., anatomy and biomechanics) to Mat Pilates teaching
- 18 Apply understanding of Pilates Mat principles to activities of daily living

Modification related tasks

- 19 Offer alternative exercises to accommodate differing levels of experience, fitness, and capacity, applying modifications or progressions to support/challenge the client
- 20 Effectively cue client-specific modifications in real time factoring in client ability, injury risk, etc.

Documentation and Safety related tasks

- 21 Create and maintain a documentation system of program, progress, and results
- 22 Conduct appropriate and safe setup and cleaning of the studio space including maintenance of Pilates props (e.g., Resistance Bands, Magic Circles/Pilates Ring, hand weights, etc.)
- 23 Identify and respond to client safety issues during class
- 24 Demonstrate knowledge of emergency response to any injury or incident that may occur during class and respond properly

Professionalism / Self Care related tasks

- 25 Work within the NPCP Pilates Scope of Practice and Code of Ethics
- 26 Recognize/identify areas for improving the effectiveness of one's own teaching
- 27 Maintain an ongoing personal Pilates practice

The job analysis committee developed 22 knowledge/skill statements across 4 content domains, as follows.

1. Client Assessment

- A. Pilates Mat intake procedures (e.g., health history, exercise readiness questionnaire, liability waiver, etc.)
- B. Objective and subjective assessment techniques
- C. Initial and ongoing assessment of client movement capabilities
- D. Adaptation of exercises and programs based on client assessments

2. Repertoire Knowledge and Program Design

- A. Pilates philosophy and practice (Return to Life by Joseph Pilates)
- B. Pilates history and philosophy (including the fact that Pilates Mat is part of the overall Pilates Method)
- C. Design balanced and effective Pilates Mat programs
- D. Design safe Pilates Mat programs

3. Technical Expertise

- A. Basic and relevant anatomy and biomechanics (e.g., posture, breathing, alignment, movement patterns, etc.)
- B. Implement safe Pilates Mat practices
- C. Apply accommodations as necessary (within scope of practice)

- D. Setup, use, and maintain relevant Pilates Mat props
- E. Setup a class environment conducive to Pilates Mat practice
- F. Execute specific Pilates Mat teaching skills (e.g., cueing, verbal and tactile corrections, spotting, imagery, etc.)
- G. Monitor and adjust Pilates Mat programs based on client needs and goals

4. Business Management and Professionalism

- A. Group management and facilitation techniques
- B. Facility hygiene and sanitation protocols
- C. Appropriate client documentation requirements (e.g., document retention, privacy, access, etc.)
- D. The Pilates Scope of Practice
- E. The Pilates Code of Ethics
- F. Engage in effective interpersonal communication with diverse groups and individuals
- G. Create and inclusive, welcoming, and supportive class environment

Following the creation of the task and knowledge lists, the committee members were tasked with identifying linkages between the task and knowledge statements. This was done to provide evidence that the knowledge areas were indeed required to perform the tasks identified. This was also done to ensure that each task was covered by at least one relevant knowledge area and that each knowledge area had at least one relevant task identified. Table 1 shows a matrix of knowledge-task linkages identified.

Table 1. Linkages Among Knowledge and Task Statements.

Job Analysis Survey

PSI developed, administered, and monitored a survey to validate the tasks and knowledge areas developed by the job analysis committee and to help determine content weighting. To this end, the survey collected respondents' ratings of the importance and frequency for each task and knowledge area. The importance and frequency scale were used to evaluate the appropriateness of the inclusion of each knowledge statement and task.

Importance

How important is this knowledge/skill in your role? How important is this task?

0 - Not Relevant

1 - Minimally Important
 2 - Somewhat Important
 3 - Moderately Important

4 - Very Important5 - Critically Important

Frequency

How frequently do you use this knowledge/skill in your role? How frequently is this task performed?

0 - Not Relevant

1 - Rarely

2 - Seldom

3 - Occasionally

4 - Frequently

5 - Very Frequently

Between August 8, 2022 and August 15, 2022, a pilot survey was conducted with members of the job analysis committee and NPCP staff members to ensure that the survey was operating correctly, and any modifications or corrections were made address the pilot survey reviewers' comments. See Appendix C for a copy of the final job analysis survey.

The live survey was sent using online survey software to a list of 5206 individuals that was obtained from NPCP. The list consisted of Pilates Mat practitioners known to NPCP. The number of individuals that responded to the survey (tasks and knowledge statements) was 963 (18%). The survey was opened on August 23, 2022 and closed on September 19, 2022. See Appendix D for the email sent to potential respondents.

Following the close of the survey, the data were analyzed to identify any respondents who did not complete the survey or provided responses lacking any variance (i.e., "straight-lining" or providing the same response to every task or knowledge). Responses from 467 respondents were removed from the data set, yielding a usable number of 496 completed responses.

Table 2 shows the mean ratings provided for frequency and importance of the task statements. Table 3 shows the mean ratings provided for the frequency and importance of the knowledge statements.

Table 2.

Frequency and Importance Ratings for Task Statements.

| Task | Statements | Importance | Frequency |
|------|---|------------|-----------|
| 1 | Observe clients' abilities, needs, and physical conditions, | 4.54 | 4.61 |
| _ | and develop suitable Pilates Mat programs | | |
| 2 | Offer alternative exercises during classes to | 4.53 | 4.58 |
| | accommodate different levels of experience, fitness, and | | |
| | capacity | | |
| 3 | Incorporate breathing techniques as part of class | 4.05 | 4.32 |
| | instruction as appropriate | | |
| 4 | Gather information regarding client's health and exercise | 4.34 | 4.19 |
| | history including need for medical release | 4.26 | 4.22 |
| 5 | Adequately assess client abilities to match program with client's skill level | 4.26 | 4.33 |
| 6 | Develop, monitor, and modify client/class program goals | 4.28 | 4.43 |
| | using objective and subjective information (e.g., body | | |
| | position, range of motion, form, repetitions etc.) | | |
| 7 | Design and implement safe, appropriate, and effective | 4.55 | 4.56 |
| | Pilates Mat programs | | |
| 8 | Create and maintain a documentation system of | 3.24 | 3.36 |
| | program, progress, and results | | |
| 9 | Adapt Pilates Mat programs to accommodate changes in | 4.12 | 4.16 |
| | individual circumstances (e.g., changes in function, | | |
| | readiness to progress, etc.) for clients | | |
| 10 | Safely incorporate Pilates Mat props (e.g., TheraBand/ | 3.85 | 4.18 |
| | Resistance Band, Magic Circles/Pilates Ring, Pilates ball, | | |
| | hand weights etc.) | | |
| 11 | Maintain Pilates Mat props (e.g., TheraBand/ Resistance | 3.74 | 3.81 |
| | Band, Magic Circles/Pilates Ring, Pilates ball, hand | | |
| | weights, etc.) | | |
| 12 | Work within the NPCP Pilates Scope of Practice and Code | 4.40 | 4.50 |
| | of Ethics | | |
| 13 | Effectively and appropriately use tactile correction | 3.97 | 4.04 |
| | techniques during class instruction | | |
| 14 | Effectively and appropriately use verbal correction | 4.47 | 4.65 |
| 4- | techniques during class instruction | 4.45 | 4.50 |
| 15 | Effectively use cueing techniques appropriate to the | 4.46 | 4.63 |
| 1.0 | client group | 4 | 4.50 |
| 16 | Effectively cue client-specific modifications in real time | 4.55 | 4.59 |
| 17 | factoring in client ability, injury risk etc. | 4.40 | 4 - 4 |
| 17 | Apply modifications or progressions to support / | 4.40 | 4.54 |
| 10 | challenge the client | 2.07 | 4.25 |
| 18 | Use variable vocal dynamics (e.g., speed, tempo, volume | 3.87 | 4.25 |
| | etc.) while instructing to reflect and support the quality of each exercise | | |
| 19 | Develop effective in-class communication style that | 2.06 | 4.30 |
| צו | facilitates "flow" in the classroom | 3.96 | 4.50 |
| | racintates now in the classifolin | | |

| Task | Statements | Importance | Frequency |
|------|---|------------|-----------|
| 20 | Incorporate full-range of exercises into Pilates Mat | 4.15 | 4.42 |
| | practice as appropriate for client/class | | |
| 21 | Identify and respond to client safety issues during class | 4.68 | 4.17 |
| 22 | Demonstrate working knowledge of the history and | 3.22 | 3.37 |
| | principles of Joe Pilates and purpose of original Mat | | |
| | Pilates as articulated in Return to Life | | |
| 23 | Develop Pilates Mat programming to accommodate full | 4.23 | 4.39 |
| | range of client experience and abilities | | |
| 24 | Maintain a class/session environment conducive to | 4.30 | 4.47 |
| | learning | | |
| 25 | Develop Pilates Mat programming to accommodate full | 3.28 | 3.24 |
| | range of session contexts (e.g., gyms, community centers, | | |
| | schools, etc.) | | |
| 26 | Demonstrate appropriate and effective classroom | 3.70 | 3.94 |
| | positioning (e.g., mingle with students vs. leading from | | |
| | front) | | |
| 27 | Conduct appropriate and safe setup and cleaning of the | 4.26 | 4.48 |
| | studio space | | |
| 28 | Create an inclusive, welcoming, and supportive class | 4.52 | 4.63 |
| | environment | | |
| 29 | Apply an understanding of relevant movement sciences | 4.21 | 4.41 |
| | (e.g., anatomy and biomechanics) to Mat Pilates teaching | | |
| 30 | Apply understanding of Pilates Mat principles to activities | 4.01 | 4.24 |
| | of daily living | 100 | 4.47 |
| 31 | Appropriately solicit input from clients about relevant | 4.36 | 4.17 |
| 22 | medical concerns that may impact practice | 4.66 | 2.04 |
| 32 | Respond properly to an injury that occurs during class | 4.66 | 2.94 |
| 33 | Demonstrate based knowledge of first emergency | 4.44 | 2.62 |
| 2.4 | response to any injury that may occur during class | 4 44 | 4 3 4 |
| 34 | Recognize/identify areas for improving the effectiveness | 4.41 | 4.24 |
| 25 | of one's own teaching | | |
| 35 | Instruct clients on Pilates specific breathing techniques - | | |
| 26 | NEW | | |
| 36 | Maintain an ongoing personal Pilates practice - NEW | | |

Table 3. Frequency and Importance Ratings for Knowledge/Skill Statements.

| Know | rledge Statements | Importance | Frequency |
|------|---|------------|-----------|
| 1 | Pilates Mat intake procedures (e.g., health history, | 3.38 | 4.37 |
| | exercise readiness questionnaire, liability waiver, etc.) | | |
| 2 | Objective and subjective assessment techniques | 3.04 | 4.21 |
| 3 | Initial and ongoing assessment of client movement | 3.23 | 4.33 |
| | capabilities | | |
| 4 | Adaptation of exercises and programs based on client | 3.64 | 4.72 |
| | assessments | | |
| 5 | Pilates philosophy and practice (Return to Life by Joseph | 2.21 | 3.29 |
| | Pilates) | | |
| 6 | Pilates history and philosophy (including the fact that | 2.51 | 3.70 |
| | Pilates Mat is part of the overall Pilates Method) | | |
| 7 | Design balanced and effective Pilates Mat programs | 3.54 | 4.67 |
| 8 | Design safe Pilates Mat programs | 3.78 | 4.82 |
| 9 | Basic and relevant anatomy and biomechanics (e.g., | 3.39 | 4.54 |
| | posture, breathing, alignment, movement patterns, etc.) | | |
| 10 | Implement safe Pilates Mat practices | 3.66 | 4.67 |
| 11 | Apply accommodations as necessary (within scope of | 3.56 | 4.61 |
| | practice) | | |
| 12 | Setup, use, and maintain relevant Pilates Mat props | 2.96 | 4.24 |
| 13 | Setup a class environment conducive to Pilates Mat | 3.01 | 4.21 |
| | practice | | |
| 14 | Execute specific Pilates Mat teaching skills (e.g., cueing, | 3.61 | 4.75 |
| | verbal and tactile corrections, spotting, imagery, etc.) | | |
| 15 | Monitor and adjust Pilates Mat programs based on client | 3.57 | 4.64 |
| 1.5 | needs and goals | 2.12 | 1.05 |
| 16 | Group management and facilitation techniques | 3.19 | 4.26 |
| 17 | Facility hygiene and sanitation protocols | 3.44 | 4.53 |
| 18 | Appropriate client documentation requirements (e.g., | 2.85 | 4.02 |
| 10 | document retention, privacy, access, etc.) | 2.27 | 4.40 |
| 19 | The Pilates Scope of Practice | 3.27 | 4.42 |
| 20 | The Pilates Code of Ethics | 2.85 | 3.89 |
| 21 | Engage in effective interpersonal communication with | 3.47 | 4.45 |
| | diverse groups and individuals | 2.22 | 4.22 |
| 22 | Create and inclusive, welcoming, and supportive class | 3.39 | 4.29 |
| | environment | | |

The survey included demographic questions regarding professional characteristics relevant to the job role. Table 4 shows a summary of the demographic questions in the survey.

Table 4. Results of the Demographic Questions in the Job Analysis Survey.

| 1. Are you a comprehensively educated Pilates Teacher? | n | % |
|--|-----|------|
| Yes | 496 | 100% |
| No | 0 | 0% |

| 2. Have you completed a Pilates Mat Teacher Training Program | n | % |
|--|-----|-------|
| Yes | 496 | 100% |
| No | 5 | 1.70% |

3. How many years of experience do you have teaching Pilates? Mean = 16.34 | Standard Deviation = 8.05 | Minimum = 0 | Maximum = 44

| 4. Do you work as a Pilates Instructor full time or part time? | n | % |
|--|-----|--------|
| Full time | 281 | 56.70% |
| Part time | 215 | 43.30% |

| 5. What is your primary practice setting? | n | % |
|--|-----|--------|
| Pilates Studio | 351 | 70.80% |
| Gym | 19 | 3.80% |
| Clinical facilities | 26 | 5.20% |
| Community center | 4 | .80% |
| Educational institution | 13 | 2.60% |
| Private sessions in client's home or offices | 11 | 2.20% |
| Other | 72 | 14.50% |

| 6. What is your secondary practice setting (if applicable)? | n | % |
|---|-----|--------|
| Pilates Studio | 59 | 11.90% |
| Gym | 40 | 8.10% |
| Clinical facilities | 32 | 6.50% |
| Community center | 8 | 1.60% |
| Educational institution | 27 | 5.40% |
| Private sessions in client's home or offices | 69 | 13.90% |
| Not applicable | 171 | 34.50% |
| Other | 90 | 18.10% |

| With which of the following special populations do you work as a Pilates teacher? Select all that apply. | n | % |
|--|-----|--------|
| Children, Adolescents, Dancers | 211 | 12.50% |
| Post-Rehabilitation | 373 | 22.00% |
| Pregnant and Post-partum Women | 275 | 16.20% |
| Seniors | 417 | 24.60% |
| Sports/Athletes | 295 | 17.40% |
| I do not work with any special populations | 42 | 2.50% |
| Other | 81 | 4.80% |

| 8. Where is your primary workplace located? | n | % |
|---|----|-------|
| Alabama | 7 | 1.41 |
| Argentina | 1 | 0.20 |
| Arizona | 17 | 3.43 |

| Pacific Islander | 3 | 0.60% |
| Other | 23 | 4.40% |
| Multiple | | 6.50% |

Development of Exam Specifications

The Job Analysis Committee met on October 2, 2022 to review the results of the survey, finalize the tasks and knowledge that would comprise the next Examination Content Outline, and finalize the content weighting for the examination.

The committee reviewed the demographic results and confirmed that the results matched expectations and impressions of the practitioner population, suggesting that the respondent sample is reflective of the target population.

All tasks were retained, and two tasks were added based on write-in prompts from respondents. The two new tasks were:

- Instruct clients on Pilates specific breathing techniques
- Maintain an ongoing personal Pilates practice

All knowledge and task statements were retained and no new knowledge/skill statements were added based on write-in prompts. As noted above, the initial 36 task statements were consolidated into 27 based on committee review.

The committee then reviewed the draft content weighting, discussing any adjustments necessary to align the number of items per content area for adequate content coverage on the assessment. The draft content weighting was developed by calculating the criticality value (mean importance rating multiplied by the mean frequency rating) and then determining a percentage weight based on the relative weight of the criticality value for each content area.

Final content weighting aligned closely with empirical estimates except for Domains 2 and 4. The weighting of Domain 2 was increased to 30% based on SME input. The weighting of Domain 4 was decreased to 20% based on SME input.

See Table 5 for a summary of the content weighting determination. The final Examination Content Outline can be found in Appendix E.

Table 5. Content Weighting Determination.

| Knov | vledge Statements | Criticality | SME Percentage | # Items |
|------|--|-------------|-------------------|------------|
| 1 | Client Assessment | 18.69 | 20% | 15 |
| 1A | Knowledge of applicable Pilates Mat intake procedures (e.g., health history, exercise readiness questionnaire, liability waiver, etc.) | 4.70 | 4% | 2 |
| 1B | Knowledge of objective and subjective assessment techniques | 4.07 | 5% | 4 |
| 1C | Skill to conduct initial and ongoing assessments of client movement capabilities | 4.45 | 5% | 4 |
| 1D | Skill to adapt exercises and programs based on client assessments | 5.47 | 6% | 5 |
| 2 | Repertoire Knowledge & Program Design | 16.34 | 30% | 23 |
| 2A | Knowledge of Pilates philosophy and practice as found in Return to Life by Joseph H. Pilates | 2.31 | 5% | 3 |
| 2B | Knowledge of Pilates philosophy and history (including the fact that Pilates Mat is part of the overall Pilates Method) | 2.96 | 5% | 4 |
| 2C | Skill to design balanced and effective Pilates Mat programs | 5.27 | 10% | 8 |
| 2D | Skill to design safe Pilates Mat programs | 5.81 | 10% | 8 |
| 3 | Technical Expertise | 34.33 | 30% | 23 |
| 3A | Knowledge of basic and relevant anatomy and biomechanics (e.g., posture, breathing, alignment, movement patterns, etc.) | 4.90 | 5% | 4 |
| 3B | Skill to implement safe Pilates Mat practices | 5.44 | 4% | 3 |
| 3C | Skill to apply accommodations as necessary (within scope of practice) | 5.22 | 4% | 3 |
| 3D | Skill to set-up, use, and maintain relevant Pilates Mat props | 4.00 | 3% | 2 |
| 3E | Skill to set-up a class environment conducive to Pilates Mat practice | 4.04 | 4% | 3 |
| 3F | Skill to execute specific Pilates Mat teaching skills (e.g., cueing, verbal adjustments, tactile adjustments, spotting, imagery, etc.) | 5.47 | 5% | 4 |
| 3G | Skill to monitor and adjust Pilates Mat programs based on client needs and goals | 5.27 | 5% | 4 |
| 4 | Business Management & Professionalism | 30.63 | 20% | 14 |
| 4A | Skill to engage in effective interpersonal communication with diverse groups and individuals | 4.33 | 3% | 2 |
| 4B | Skill to create an inclusive, welcoming, and supportive class environment | 4.96 | 3% | 1 |
| 4C | Knowledge of group management and facilitation techniques | 3.64 | 3% | 1 |
| 4D | Knowledge of facility hygiene and sanitation protocols | 4.61 | 1% | 3 |
| 4E | Knowledge of appropriate client documentation requirements (e.g., retention, privacy, access, etc.) | 3.53 | 2% | 3 |
| 4F | Knowledge of the Pilates Scope of Practice | 4.93 | 4% | 2 |
| 4G | Knowledge of the Pilates Code of Ethics | 4.64 | 4% | 2 |

Appendix B

Job Analysis Presentation

Objectives Develop a description of the profession - Define the relevant tasks Define the relevant knowledge Develop all other elements for a survey - Develop background information questions Review rating scales Establish linkages Identify meaningful connections between the task and knowledge lists psi

Job Analysis Process

- 1. Prepare Draft Materials
- 2. Conduct Job Analysis Meeting

You Are Here

- 3. Conduct Pilot Survey
- 4. Conduct Live Survey
- 5. Perform Data Analysis
- 6. Create Exam Specifications
- 7. Develop Summary Report

Purpose of Credentialing Examinations

- To protect the public from harm caused by incompetent professional practice
- To assess professional competence in terms of the knowledge and skills required to successfully perform the tasks associated with the job role
- To establish and apply a consistent standard that reflects the competency level required of practitioners who meet the eligibility requirements
- To provide a valid and reliable means of identifying those who are competent to practice in the profession

What is a Job Analysis?

Procedure to identify the content of a job in terms of activities involved and attributes or requirements needed to perform the activities.

A representative list of knowledge and tasks associated with the job is developed

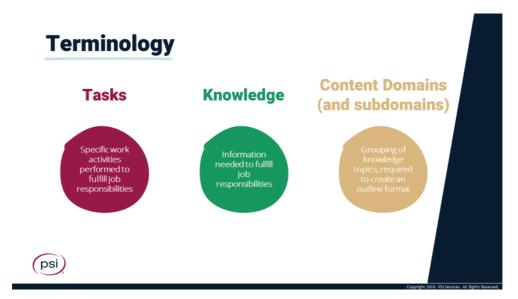

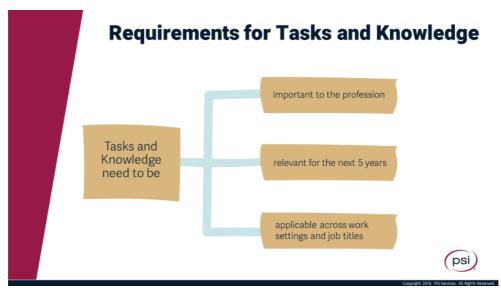

Multiple Levels of Analysis

To create a comprehensive and accurate representation of the job role, we must identify:

- > Target Population
- > Tasks Performed

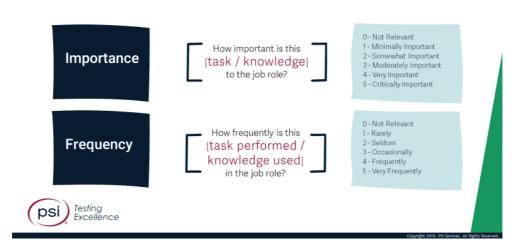

Rating Scales

Why Are You Here?

Linkage Analysis

Knowledge vs. Task

- The list of Knowledge areas is used to delineate what content will be directly assessed by the exam
- Tasks provide additional context for the application of those knowledge and skills

Purpose of Linkage Analysis

- To establish evidence that the Knowledge areas are applicable to the Tasks
- To determine any potential gaps in either inventory

Linkage Matrix

We will identify connections among tasks and knowledge

The Outcome Looks Something Like This

Each linkage represents that the knowledge is required in order to complete the task

| | T1 | T2 | T3 | T4 | T5 |
|-----|----|----|----|----|----|
| 1A1 | Χ | | | | |
| 1A2 | | Χ | | | |
| 1A3 | | Χ | | Х | |
| 1B1 | | | Χ | | |
| 1B2 | | | Χ | | Х |
| 1C1 | | | | Х | |
| 1C2 | | | | Х | |
| 2A1 | Χ | | Χ | | |
| 2A2 | | Χ | | | |
| 2B1 | | | Χ | Х | |
| 2B2 | | Χ | | | |
| 2B3 | | | Χ | Х | Х |
| 2B4 | | Χ | Χ | | |

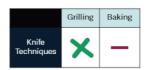

Linkage Thought Process

Doesn't everything apply to everything?

- Not exactly

Consider this example:

- I need knowledge of Knife Techniques to Prepare Ingredients For Grilling
- I don't need knowledge of Knife Techniques to Mix Baking Ingredients

Survey Text

NPCP - Pilates Mat Certification Job Analysis Survey

Welcome

The purpose of this survey is to identify tasks and knowledge/skills reflective of those qualified to teach Pilates Mat safely to the public. The results of this survey will help develop the specifications for the NPCP-Pilates Mat Certification Examination.

The survey will take approximately 30 minutes to complete. You can complete each part of the survey in separate sittings at the same computer. Please be aware that you must finish a page before clicking on "Next" to save your responses up to that point. There is no limit on the number of times you can use the link to go back to the survey before clicking on "Done" to submit your survey.

Your individual responses will be kept confidential and will be combined with those of other respondents. Only staff persons from PSI Services and NPCP will have access to the data collected. Aggregated data from this survey will be published in a report that summarizes the process used to develop the specifications for the Pilates Mat Certification Exam. For more information about PSI's privacy and data protection policy, please click here.

The deadline for completion of the survey is September 16th, 2022. If you have any questions regarding the survey, please contact Ray Infante at rayi@natpcp.org or 954.420.1835 ext. 208.

Knowledge and Skills

Please use the following rating scales to indicate how frequently you use each knowledge/skill area and how important it is to your professional role.

- Frequency: How frequently do you use this knowledge/skill in your role?
- Importance: How important is this knowledge/skill to your role?

Please be sure to respond from the perspective of a Pilates Mat Teacher.

Survey Invitation Email

| DATE: | 08/23/2022 |
|----------|--|
| FROM: | loloa@natpcp.org via SurveyMonkey |
| SUBJECT: | NPCP – Pilates Mat Certification – Job Task Analysis Survey |
| BODY: | The National Pilates Certification Program (NPCP) is conducting a Job Task Analysis to support the development of a new Pilates Mat Certification. The purpose of this study is to develop a comprehensive understanding of the practice domains and tasks that underlie a Pilates Mat program. Data from the Job Task Analysis will serve as the foundation of the new Pilates Mat Certification Examination. A central part of the Job Task Analysis process is collecting input from Pilates experts (like you) about the tasks, knowledge, and skills that are required to safely teach Pilates Mat. You are receiving this email because you have been identified by NPCP as an expert in your field. You can assist NPCP by completing the Job Task Analysis survey for the new Pilates Mat certification exam. The results of this survey will help develop the Exam Content Outline for the NPCP Pilates Mat exam. Thank you in advance for your assistance in this process. Warm Regards, NPCP |

Appendix E

Exam Content Outline

| 1 | Client Assessment | 15 |
|---|--|----|
| | Knowledge | |
| Α | Pilates Mat intake procedures (e.g., health history, exercise readiness questionnaire, liability waiver, etc.) | 2 |
| В | Objective and subjective assessment techniques Skills | 4 |
| С | Initial and ongoing assessment of client movement capabilities | 4 |
| D | Adaptation of exercises and programs based on client assessments | 5 |
| 2 | Repertoire Knowledge and Program Design | 23 |
| | Knowledge | |
| Α | Pilates philosophy and practice (Return to Life by Joseph Pilates) | 3 |
| В | Pilates history and philosophy (including the fact that Pilates Mat is part of the overall Pilates Method) | 4 |
| | Skills | |
| C | Design balanced and effective Pilates Mat programs | 8 |
| D | Design safe Pilates Mat programs | 8 |
| 3 | Technical Expertise | 23 |
| • | Knowledge | |
| A | Basic and relevant anatomy and biomechanics (e.g., posture, breathing, alignment, movement patterns, etc.) | 4 |
| | Skills | |
| В | Implement safe Pilates Mat practices | 3 |
| C | Apply accommodations as necessary (within scope of practice) | 3 |
| D | Setup, use, and maintain relevant Pilates Mat props | 2 |
| E | Setup a class environment conducive to Pilates Mat practice | 3 |
| F | Execute specific Pilates Mat teaching skills (e.g., cueing, verbal and tactile corrections, spotting, imagery, etc.) | 4 |
| G | Monitor and adjust Pilates Mat programs based on client needs and goals | 4 |
| 4 | Business Management and Professionalism | 14 |
| • | Knowledge | |
| Α | Group management and facilitation techniques | 2 |
| В | Facility hygiene and sanitation protocols | 1 |
| C | Appropriate client documentation requirements (e.g., document retention, | 4 |
| | privacy, access, etc.) | 1 |
| D | The Pilates Scope of Practice | 3 |
| Е | The Pilates Code of Ethics | 3 |
| | Skills | |
| F | Engage in effective interpersonal communication with diverse groups and individuals | 2 |
| G | Create an inclusive, welcoming, and supportive class environment | 2 |

Pilates Mat Tasks

Intake related tasks

- 1. Observe and assess clients' abilities, needs, and physical conditions, and develop suitable Pilates Mat programs to match program with client's skill level
- 2. Appropriately solicit and gather information regarding client's health and exercise history including need for medical release that may impact practice

Program design related tasks

- 3. Demonstrate working knowledge of the history and principles of Joseph Pilates and purpose of original Mat Pilates as articulated in Return to Life
- 4. Develop Pilates Mat programming to accommodate full range of client experience and abilities, and full range of session contexts (e.g., gyms, community centers, schools, etc.)
- 5. Incorporate full range of exercises into Pilates Mat practice as appropriate for client/class
- 6. Apply and understanding of relevant movement sciences (e.g., anatomy and biomechanics) to Mat Pilates teaching
- 7. Design and implement safe, appropriate, and effective Pilates Mat programs, including monitoring and modifying client/class program goals using objective and subjective information (e.g., body position, range of motion, form, repetitions, etc.)
- 8. Safely incorporate Pilates Mat props (e.g., Resistance Band, Magic Circles/Pilates Ring, balls, hand weights, etc.)

Teaching related tasks

- 9. Create an inclusive, welcoming, and supportive class environment
- 10. Incorporate and instruct clients on Pilates specific breathing techniques
- 11. Adapt Pilates Mat programs to accommodate changes in client's individual circumstances (e.g., changes in function, readiness to progress, etc.)
- 12. Effectively cue client-specific modifications in real time factoring in client ability, injury risk etc.
- 13. Effectively and appropriately use verbal and tactile correction techniques during class instruction
- 14. Use variable vocal dynamics (e.g., speed, tempo, volume etc.) while instructing to reflect and support the quality of each exercise
- 15. Develop effective in-class communication style that facilitates "flow"
- 16. Maintain a class/session environment conducive to learning, including effective classroom positioning (e.g., mingle with students vs. leading from front)
- 17. Apply an understanding of relevant movement sciences (e.g., anatomy and biomechanics) to Mat Pilates teaching
- 18. Apply understanding of Pilates Mat principles to activities of daily living

Modification related tasks

- 19. Offer alternative exercises to accommodate differing levels of experience, fitness, and capacity, applying modifications or progressions to support/challenge the client
- 20. Effectively cue client-specific modifications in real time factoring in client ability, injury risk, etc.

Documentation and Safety related tasks

- Create and maintain a documentation system of program, progress, and results 21.
- 22. Conduct appropriate and safe setup and cleaning of the studio space including maintenance of Pilates props (e.g., Resistance Bands, Magic Circles/Pilates Ring, hand weights, etc.)
- 23. Identify and respond to client safety issues during class
- 24. Demonstrate knowledge of emergency response to any injury or incident that may occur during class and respond properly

Professionalism / Self Care related tasks

- Work within the NPCP Pilates Scope of Practice and Code of Ethics
- Recognize/identify areas for improving the effectiveness of one's own teaching 26.
- 27. Maintain an ongoing personal Pilates practice
